Take time to adopt a new cat/kitten, and please listen to our advice. Cats take 2 to 4 weeks to adjust to new surroundings, and you should keep your new cat inside for at least 4 weeks. Once it has adjusted, your cat should be kept inside at night for its own safety and the safety of the local wildlife.

We have a 28 day cooling off period whereby any cat purchased can be returned to the refuge within 28 days. At the discretion of the refuge, no refund is given but a credit for another animal is allowable within 6 months. This is a once only option.
